In the days to come after your event, they are a great way for you to keep people posted on your progress. They are also lovely for anyone to use when they want to send a very special message when an E-card just won't do.

The peony is known as the flower of honor. With their luscious, rounded blooms, peonies exude romance and are regarded as an omen of happiness. This makes them exquisite for use as images for invitations, event program covers, and greeting cards. To see my upcoming collection of such renditions – based on photos from my tree peony (*Paeonia suffruticosa*) – please visit my on-line brochure, which includes my blog, at www.thelastleafgardener.com.
